

SYED MUHAMMAD HAMZAH RIZVI

Technical Software Consultant / Systems Integration Engineer

PROFILE

Technical Software Consultant with strong expertise in **AI-based biometrics, systems integration, and real-world product deployment**. Experienced in delivering end-to-end solutions across the full project lifecycle — from design and API integration to deployment, testing, documentation, and customer handover.

Currently working at Innovative Technology on biometric and age-verification platforms, acting as a technical bridge between **engineering, product, sales, installers, and customers**. Holds an MSc in Robotics & Automation with a focus on **computer vision and facial analysis**, combined with a solid industrial engineering background.

WORK EXPERIENCE

**3.2023 –
PRESENT**

INNOVATIVE TECHNOLOGY LTD. — TECHNICAL SOFTWARE CONSULTANT

- Lead **AI biometric solution integration** across MyCheckr, ICU Pro, and MyConnect Hub platforms.
- Design and support **customer identity and profile management workflows**, linking biometric FaceIDs with external client databases via REST APIs.
- Advise customers and partners on **best-practice enrolment strategies**, detection event handling, and access-decision logic.
- Own **API integration guidance**, including endpoints for enrolment, recognition events, analytics, relay control, and screen actions.
- Act as primary technical contact for **custom integrations**, ensuring reliable interoperability between biometric devices and third-party software.
- Translate field and customer feedback into **firmware improvements and feature requests**, supporting BIOM205 and later releases.
- Produce clear **technical documentation** (API notes, integration diagrams, Quick Start Guides), improving deployment success and reducing integration errors.
- Support firmware validation, release candidates, and security updates, including **encrypted FaceID handling**.

Manchester - UK

**3.2020 –
9.2021**

TRIPACK FILMS LTD. — KARACHI, PAKISTAN

- Managed multi-disciplinary engineering operations across utilities, mechanical, electrical, project, and R&D departments.
- Led installation and commissioning of industrial systems including cooling towers, pipelines, and automation upgrades.
- Implemented process improvements and cost-saving initiatives, improving operational efficiency and reporting accuracy.
- Coordinated internal teams and external contractors to deliver projects safely and on schedule.

Karachi - PK

**12.2019 –
3.2020**

EVOLLIGENCE PVT. LTD. — KARACHI, PAKISTAN

- Developed and customized business management and integration software using the PEGA platform.
 - Contributed to system design, development, and troubleshooting for client-specific workflows.
-

EDUCATION HISTORY

9.2021 – 11.2022	MSC ROBOTICS & AUTOMATION University of Salford — Manchester, UK	Focus areas: Artificial Intelligence, Mobile Robotics, Automation Dissertation: <i>Facial Age and Gender Estimation using Convolutional Neural Networks</i>
9.2015 – 8.2019	BENG ELECTRICAL ENGINEERING National University of Science & Technology (NUST) — Karachi, Pakistan	Strong foundation in electrical engineering, control systems, and applied mathematics Extensive laboratory and project-based learning

INTERESTS Football, Swimming, Reading, Volunteering, Strategy & Simulation Games	LANGUAGES English Urdu/Hindi	SKILLS Biometrics & AI: Facial Age & Gender Estimation, Biometric Systems, Computer Vision, Edge AI Deployment Software & Integration: REST APIs, Python, SQL, MATLAB, API Testing & Debugging, Product Integration Industrial & Control Systems: PLC & VFD (Siemens SIMATIC / TIA Portal), BMS, Electrical Systems, Safety Regulations Professional: Technical Documentation, Customer Consultation, Project Coordination, Cross-Team Collaboration
